**AB-Height
Restriction
Entrance Way
Warning Barriers**

The Essential First Step

Size	2000mm to 9000mm (Typical). 2000mm to 4000mm (Typical).
Material	Heavy Duty Steel.
Construction	Custom built to suit exact heights and spans. Welded Steel Construction. Sturdy 100mm sq. Section uprights (Typical). Frame - Steel painted or Gal. Separate nudege bar & height restriction signs. Nudge bar arm - Aluminium or steel.
Colour	Frame standard is Grey. Corporate colours available upon request.
Additional Notes	These barriers are designed and installed to remind people of overhead low clearance height restrictions and also to prevent access to un-authorized areas. Nudge bar arm optional. Nudge bar height restriction signage optional.
