Additional Notes	<p>Australian Bollards - Crowd Barrier Stanchions are the most popular and effective line management system, keeping your lines moving in a safe, orderly way. These barriers help to isolate areas during events and are simple to use and setup. They can be easily stored away when not in use.</p> <p>Applications include banks, auditorium, retail environment, entertainment venues, airports, restaurants, bars, entryways, ticket booths, cash registers, banquet halls, hotel lobbies, conferences, exhibition, galleries, museum displays etc.</p>
