**Product Code: EDS-43**

# E-DS 43 Specification Sheet

- The EDS-43 is an advanced Variable Rate Board display.
- It features a built-in computer and can be managed remotely via cloud-based software.
- This means E-DS 43 owners can change the displayed parking prices from a computer in their office or even schedule changes in the display.
- The device can also be used to provide parking guidance information so parking lot users can find parking spots more efficiently.
- It can also be used to display traffic information to inform parking lot users of the best route to their next destination warning them of road works, accidents and traffic jams.
- Advertising or instructional video can also be displayed.

<b>Dimensions</b>	<b>1850 x 650 x 150mm</b>
