

ENERGY ABSORBING BOLLARDS

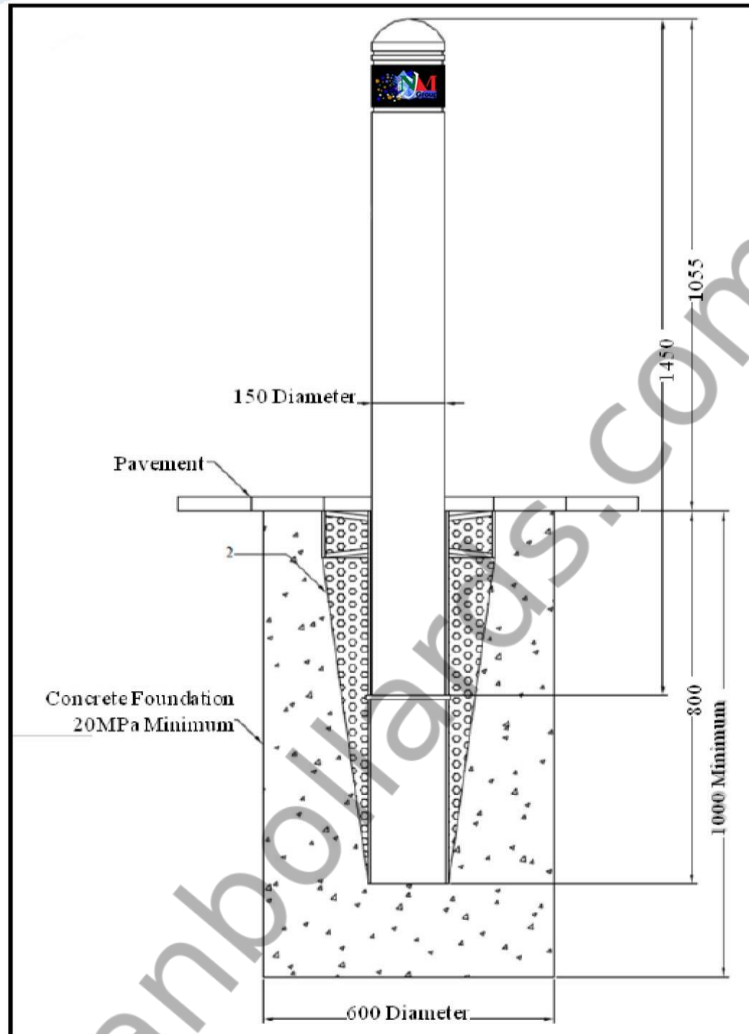

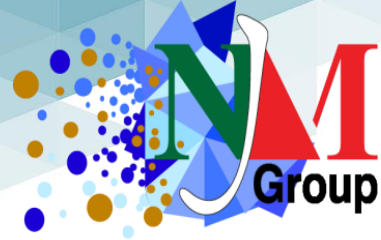

AB-EAB

	Carbon Hollow Bar	Cartridge
Diameter (mm)	150	Top: 355.6; Bottom: 165
Length (mm)	1450	800
Weight (kg)	67.5	28.5
Speed (km/h)	60	60

ENERGY ABSORBING BOLLARDS

AB-EAB

- The AB-EAB (Energy Absorbing Bollards) is a non-gating energy absorbing bollard designed for low speed environments where the operating speed is 60km/h or less.
- Below ground level, the EAB's cartridge absorbs vehicle impact energy.
