

**AB-TK-SB**

**Tyre Killer**

**Spike Barrier**

The Essential First Step

Length	1000mm (per module) x 3mm (Thickness)
Height	50mm
Width	385mm
Material	Mild steel, metallic powder coated in AB Safety Yellow. Spike: Zinc with reflective film.
Weight	21Kg (per module)
Installation	Surface Mounted. Each module have 6 fixing holes.

**Additional Notes** Australian Bollards - Tyre Killer is a simple and reliable system, when the spikes are in closed position, access is allowed, and once they are raised, they have the capability of stopping trucks at the speed of 80 km/h.

In all instances when one-way traffic control is needed, our tyre killers are an efficient solution and can be implemented at various locations. High Visible yellow color makes it easily to be seen on dark night. Anti skid surface & proper height control and prevent the vehicle from over speed.
