<b>Additional Notes</b>	<p>Australian Bollards - Tyre Killer is a simple and reliable system, when the spikes are in closed position, access is allowed, and once they are raised, they have the capability of stopping trucks.</p> <p>In all instances when one-way traffic control is needed, our tyre killers are an efficient solution and can be implemented at various locations. High Visible yellow colour makes it easily to be seen on dark night. Anti skid surface &amp; proper height control and prevent the vehicle from over speed.</p>
