

How to use a QR Code

Step by Step Tutorial

1. Open up the Google Play Store
2. Type in “QR Code” into the search bar and press enter.
3. Download and install the most appropriate QR Code app that suits your needs best. We recommend using the QR Code Reader and Scanner app.
4. Open up the QR Code Reader and Scanner app and hover the camera over the code so it can scan it.
5. After scanning the code, click on the web link provided by the app. It will direct you to a fill out form where you can write down your details.
6. Once complete, press submit.
